I have been a loyal user of Pomega5 for several years now. After experimenting with various brands, I can say that other products just don't have the same effect, and certainly don't feel as pure. For me, the ultimate combination is the **Repair Duo**, which includes **Intensive Nightly Repair Serum** and **Grenade Anti Rides Nourishing Cream**, two truly phenomenal products. Each time after using them my skin feels silky smooth and nourished, and positively glows! My friends constantly remark on how youthful I look - you can definitely notice a difference in the texture and tone of my skin. Whether or not you care about natural ingredients, these are products I would recommend to any woman who is searching for a good anti-aging system because they really work, and it shows. Thank you, Tzeira, for giving me the gift of beauty and youthfulness, and for fostering my self-esteem.

I had acne for 16 years and tried everything - Spironalactane, Chlindomycin, and many skincare products. I had so much scarring from the cystic acne; I feared nothing would ever help me. I would cry when I would wash my face, or even when I applied moisturizer. My face was so tender. I literally hid my face from the mirror and even from my husband. I was so red and blotchy. My skin looked as if it was peeling off... I was so ashamed! Until - Pomega5 brought healing to my skin, and ultimately to my life! Now my skin has said bye-bye acne and redness, and hello beautiful! You know the best thing? I feel beautiful! Pomega5 products have so influenced my life that when I am an esthetician I will only use Pomega5 products on my clients. Thank you, Pomega5!

Pomega5 is the best ever skincare I have tried! I love all the products. They are well worth the investment! All of the products are rated 0 or 1 on Skin Deep's Cosmetic Safety Database, which means green light (0 - 3) safety rating. Thanks for the great products.

I love the **Daily Revitalizing Concentrate** ampoules: they saved my skin. When I moved to a new city with hot humid weather, my acne flared, and I immediately sought out the best-rated dermatologist in town who has been aired as a skin specialist on CNN. Unfortunately, he recommended an aggressive regimen comprised of antibiotics and harsh topical creams that made my skin peel for weeks! I grew increasingly nervous, especially when I saw the conditions worsening. Finally, I turned to one of my best friends in devastation, and she recommended that I try Pomega5's **Daily Revitalizing Concentrate** to restore the moisture to my now-dry skin. Sure enough, within two days of using the ampoules my skin became softer, suppler, and I was able to enjoy smoother skin again. I stopped using all topical chemicals and applied the natural oils from the ampoules on my face before bedtime. Combined with **Healing Cream** for daytime and nighttime use, the ampoules minimized the flare-ups and redness my skin also suffered from. Now, even with my skin disaster averted, **Daily Revitalizing Concentrate** is my favorite night "cream" - better than any synthetic-filled product from the doctor's office or off the shelf in the cosmetic aisles. The oil absorbs easily into the skin if you rub in circular motions. I, however, prefer to pat the oil on my face to enjoy the cool sensation and let it slowly seep in as I rest.

I can't say enough good things about Pomega5 products! I have a skin condition called PMLE (short for Polymorphous Light Eruption), which causes extreme sunburn, rashes, dryness, and irritation of the skin. There is no treatment out there for my condition; however, Pomega5's products heal my skin. I can't thank this company enough for creating a product that makes my skin condition better, so I can actually step out in public and not be ashamed of the way my arms and face look. My favorite product is the **Healing Cream**, but I recommend any and all of their products. THANK YOU, POMEGA!!!!

I grew up in the Southwest – a sun worshipper who never knew the word, “sunscreen,” until my late-20s. I was constantly in the sun, with a great love for sports and the outdoors. In addition to the challenges of a lot of streaky pigment on my face, I found that almost every product line I'd ever tried caused my sensitive skin to be constantly broken out in blemishes. So, by the time my friend quietly spoke to me about the Pomega5 line, I was using almost NOTHING. My skin looked dry, leathery and streaky with pigment – sadly, old beyond my years. However, I was afraid of the breakouts and very skeptical whether anything could help my skin. I am a businesswoman, attorney and negotiator; at 52 my life is a whirlwind of work and family obligations. I wanted to look better, but needed a simple, foolproof system – something that would not make my skin worse AGAIN. At the time I was introduced to Pomega5, I had lost faith that any products could help my skin... My dear friend, another dedicated customer, actually sent me three Pomega5 products as her generous gift to me: **Bulgarian Rose Moisturizing Beauty Bar**, **Intensive Nightly Repair Serum** and **Grenade Anti Rides Nourishing Cream**. I am so happy and thrilled with Pomega5. I am attaching a recent, completely un-retouched photo of me with one of my beloved Bernese Mountain Dogs. I hope you will agree that the miraculous results of your products are clearly shown in this photo. With a grateful heart,

After trying various over-the-counter and prescription creams, I started using Pomega5 **Healing Cream** to control my skin redness, and after using it regularly for a few weeks I could see a noticeable difference. Not only was **Healing Cream** more effective, but it felt and smelled much better than the other synthetic products I had tried. I also felt much better knowing that it was all-natural – that I wasn't lathering all kinds of chemicals onto my skin. The **Healing Cream** is also full and thick, and you can feel it on you longer, in contrast to most creams that lose their effect after a few minutes.

In July '07 I had a full facial laser and micro-dermabrasion treatment. After the 4th day I began applying Pomega5 **Healing Cream** as well as taking the **Pure Pomegranate Seed Oil** capsules with my other supplements. I observed that my process healing and the shedding of old skin was accelerated, and re-growth was encouraged at a more rapid rate. In fact, my aesthetician was amazed at how fast I healed compared to her other clients and was very pleased with the smoothness of my skin. A lot of women have laser surgery and I know that they will heal much faster if they use these products.

A year ago I had to have an emergency c-section that left me with a huge ragged, uneven scar that extends across my abdomen from one hip to the other. I also had Keloids, which were not going away. I was unable to put anything on it for months because of the staples and tape holding the skin in place. Several of my friends said that the scar was huge and did not look right. Three months ago I received a sample of Pomega5's **Healing Cream**. I began applying it everyday and I definitely notice a difference. The Keloids are starting to smooth away and the scar is fading. There really is something going on with these products.

Pomega5 is without question the finest skin product I have ever used. It makes my skin feel satiny and smooth, and I know that while it feels so fabulous, it is truly nourishing my skin. It is an enormous treat to be able to use a product that I know is absolutely pure, and in addition, makes my skin look fabulous. All of my friends have told me that my skin looks amazing. I am grateful to your company for producing a product that is positively outstanding.

Since the time I had acne as a teenager, I have been unfortunate to have large pores. Over the years, I have tried many different products, some very expensive, but nothing really made any significant difference. After using Pomega5 **Healing Cream** for a couple of months (about 3/4 of a jar), I was totally taken aback one morning when applying my make-up and studying my face a little more closely than usual in front of my 7x magnifying mirror: my pores had *dramatically* shrunk. I couldn't believe it, and still find it hard to. I have recommended this product to all my friends.

Pomega5's **Daily Purifying Face Mist** is unlike any other toner I have tried in the past. It never dries out my skin or gives me that tight feeling that other toners have done in the past. It leaves my skin feeling hydrated and refreshed. I use it *all* the time: after I take a shower, of course, but I even keep it in the car, so that after a hard workout or a long day I can just spritz some on and experience that pick-me-up! I think it's the combination of the wonderful, fresh smell and the coolness that really wake me up. This toner is amazing!

I was skeptical when I read that this **Cleansing Bar** was made according to an ancient formula based in antiquity. But I'm telling you, and I know people don't like to be told: this one is the Holy Grail of cleansers. To me, Pomega5's **Lemongrass Clarifying Cleansing Bar** is a food-like cleanser. So natural, it's like washing with water alone. My skin doesn't break out anymore.

- Robert

Springfield, Illinois

It is impossible for me to recommend Pomega5 **Healing Cream** highly enough. Not only is it biodynamic and organic – the ingredient list is about as good as it gets. Packed to the brim with 100% cold pressed extra virgin pomegranate seed oil (which in itself is loaded with essential fatty acids that are necessary for healthy skin cell function), it contains all of nature's most potent bioactives that truly work miracles to restore and nurture skin health: arnica, calendula, carrot oil, and on the list goes. Even being an organic beauty product maven I found it super hard to give up my Estee Lauder because I could never find anything good enough, but I've been using this for about 4 months and just about every time I bump into or meet up with a girlfriend they ALL comment on how amazing my skin is looking!! One of my best friends just got a second degree burn and was using something the doctor had recommended which was doing diddly squat, so I gave her some **Healing Cream** and within three days it was waaaay down the track to being recovered. Needless to say, she's a total convert. I love, love, LOVE this product.
